

Project Overview

Client: BOC Limited
Completed: 2012
Value: \$14,800,000.00

The 1,500 sq. metre Cylinder Maintenance Centre automatically tests, stamps, repaints and codes all of BOC's gas cylinder inventory. It includes complex conveyor, gases, compressed air, power and data reticulation to support the dual production lines systems and plant.

PSA Consulting were the Architects and Project Managers.
